# FOOD

A modern take on the food market, offering a wide selection of street food from across the globe.

STACK has a selection of street food traders that will fit everyone's appetite! This ensures your guests have plenty of choice when it comes to food options.

- Instead of trying to prebook a menu that considers everyone's taste preferences and dietary requirements, we offer individual food vouchers for each guest. This means that guests can order food perfectly suited to them, from any of our food traders! This makes it nice and easy for our fabulous organisers, as well as ensuring each guest gets a premium product that they will love.
- If guests wish, they can order and pay for additional food on the day, or contribute towards the voucher for a larger purchase. However, this isn't essential as the voucher will always cover a substantial meal!
- We use a buzzer system, meaning guests can order their food at the hatch and then head straight back to the group with their buzzer whilst waiting for their food to be prepared by our teams!

# DRINKS

Throughout STACK you will find a number of bars to choose from. The majority of our bars are themed, with their very own cocktail menu available alongside the classics, giving

- Our drink vouchers are extremely popular with our bookers as they allow guests to purchase any drinks of their choice from any of our bars.
- Guests are welcome to purchase multiple drinks per vouchers, or can contribute towards the total spend on the day should they wish to opt for a more premium drink.
- If you are looking for arrival drinks or a package to enjoy within your reserved area, we have options for these too. Check out t Let us know what you are thinking and we can build a bespoke package with you!

Eating and drinking with groups of friends in a lively environment is the main reason for visiting us at STACK, but it's not all we have to offer!
